COLLABORATE ON A CURVE

Join meetings faster: Enjoy world class collaboration and efficient, fast meetings with a dedicated, one-touch Microsoft Teams button.

Immersive collaboration: Razor-sharp video clarity on a pop-up 5MP IR camera with FHD video resolution giving you more than twice the detail of a 2MP on a beautiful, panoramic screen.

Clear, vibrant sound: Dual 5W integrated speakers deliver clear, vibrant communication from any workspace quashing background chatter with a noise-canceling microphone.
ALWAYS MEETING READY

Ready to meet: With the high definition 5MP IR camera, dual 5W integrated speakers and noise-canceling microphone, you are good to go for any meeting.

Enhanced Security: The pop-up 5MP camera hides safely out of sight when not in use and adds an intelligent layer of security with facial recognition through Windows Hello™[1].

Personalized convenience: Say what you need and let Cortana do the rest with hands-free commands.

MULTITASK MODE

Multitask efficiently: Connect two PC sources to the monitor and display the content at the same time with Picture-by-Picture (PBP) and Picture-in-Picture (PIP) features. Use the KVM (keyboard, video and mouse) feature to edit content from two different PCs using a single keyboard and mouse.

The power of USB-C®: Connect to productivity: With wired connectivity options like RJ45 and USB-C®, your monitor delivers reliable Ethernet[2], power, audio and video — all in one clutter-free setup.

Enhanced manageability: Managing your monitor is easy with MAC Address pass-through[3], PXE boot, and wake-on LAN conveniently built in.

Productivity at every level: Easy Arrange allows you to easily tile multiple applications across one or more screens with 38 pre-set window partitions and the ability to personalize up to five windows, giving you improved multitasking abilities.[4]

WORK COMFORTABLY

Flexible, all-day comfort: Tilt, swivel and adjust the height of your monitor for a comfortable setup all day long. Or choose from a variety of mounts and stands, including VESA, for even more flexibility.

Easy on the eyes: Comfort meets collaboration with ComfortView Plus[5] — an always-on, built-in low blue light screen that optimizes eye comfort by reducing potentially harmful blue light emissions while delivering excellent color accuracy.
